Information You Will Receive

You should be aware that you are entitled to receive and we will provide you with a Statement of Advice (SOA - document outlining the advice) whenever we provide you with any initial advice which takes into account your objectives, financial situation and needs. The Statement of Advice will contain the advice, the basis on which it is given and information about fees, commissions and associations which may have influenced the provision of the advice.

If you have an ongoing service agreement with us, on an ongoing basis after the initial Statement of Advice has been provided to you, we will provide you with either verbal advice or a documented Record of Advice (ROA) where the basis of advice does not significantly differ from the initial advice.

The ROA document consists of recommendations made, basis of recommendations, remuneration disclosure and important issues relating to the advice. The ROA will be kept on file for 7 years from the date of the advice. You have a right to request a copy of these documents within this time period.

In the event we make a recommendation to acquire a particular financial product (other than securities) or offer to issue or arrange the issue of a financial product, we must also provide you with a Product Disclosure Statement containing information about the particular product which will enable you to make an informed decision in relation to the acquisition of that product.

Should you choose to use our credit services, you will also receive a Credit Quote and a Credit Proposal Document. The Credit Quote provides you with details of the credit services provided to you and its associated costs. We will not charge you above what is noted within the Credit Quote. You have the right not to divulge this information to us, if you do not wish to do so. In that case, we are required to warn you about the possible consequences of us not having your full personal information. You should read the warnings carefully.

Loan Products - Is it appropriate for you?

Before we can recommend a suitable loan package that would meet your requirements we must have a complete knowledge of your current financial situation, financial objectives and borrowing needs.

As a credit licensee we are required to:

- Make reasonable inquiries about your financial situation, and your requirements and objectives;
- Take reasonable steps to verify your financial situation; and
- Make a preliminary assessment (for providing credit assistance) or final assessment (if a credit provider) about whether the credit contract is 'not unsuitable' based on the inquiries and information obtained in the first two steps.

You can request for a written copy of the preliminary assessment within 7 years of the date of the credit assistance quote.

Through our assessment and review process we aim to ensure that the credit contract is suitable for you.

A credit contract may be unsuitable for you and would not be recommended if:

- You will not be able to maintain the credit contract without substantial financial hardship; or
- The credit contract does not meet your requirements or objectives.

- A written quote provided before work commences

The following table outlines the various types of fees that may be applicable. Note that these fees are dependent on the actual services being provided to an individual client and are indicative only. We will provide a quote specific to your requirements and your approval will be sought before any work is undertaken.

Service/Activity	Fee Arrangement
Initial Financial Advice Process (3 parts)	
<p><u>1) Discovery Meeting</u></p> <p>In this meeting we gather all necessary information for us to develop the "Terms of Engagement" document. This is generally a stimulating and thought provoking meeting where we identify your values, goals and objectives and develop a strong understanding of your current position. From this meeting, we prepare the Terms of Engagement document, and arrange our next "Engagement meeting".</p>	<p>This meeting may be charged at the hourly rate of \$330 or the fee can be waived.</p>
<p><u>2) Engagement Meeting</u></p> <p>During the engagement meeting, we run through the Terms of Engagement document and restate your current position and goals and objectives to ensure we have understood them correctly. This is vital to ensure we have the correct information as this forms the basis of the recommendations we will prepare for you.</p> <p>During this meeting, we also provide an estimate of the cost for the Statement of Advice (SOA). This fee can range depending on the scope of advice and the complexity.</p>	<p>The initial fees generally fall into a range of \$4,000 to \$12,000 however sometimes they are more and sometimes they are less.</p> <p>We generally require 50% of the quoted upper range of this fee upfront, before work commences. The balance is payable upon receipt of the Statement of Advice.</p> <p>Upon receipt of the first 50% of the fee, work is then commenced on the SOA and the presentation meeting is arranged.</p>
<p><u>3) SOA Presentation Meeting</u></p> <p>The third meeting is to present your SOA to you. The SOA remains the property of Bennett Wealth Group Pty Ltd until either a Fee Authority has been signed or the balance of the Statement of Advice fee has been paid.</p> <p>Once you have reviewed the SOA and agree to take some or all of the advice, the Authority to Proceed (ATP) is then signed and any changes noted. This confirms that you wish for us to proceed with the recommendations. There will often be discussions that may result in minor changes to the recommendations, which should be documented on the ATP.</p>	<p>Balance of quoted fee is required.</p>

<p><u>Special Project Fees</u></p> <p>Periodically an existing client will have a “special project” which falls outside the work covered by the ongoing fee. For example a Redundancy, Estate Planning, Insurance work or management of an inheritance, which will require a special project SOA.</p> <p>In this case, an estimate of the costs involved is provided prior to the work being completed. Fees charged can vary depending on the scope of advice and the complexity.</p>	<p>The fee for this Special Project SOA is due 7 days after the presentation meeting is held or the document is posted.</p>
<p><u>Meeting Fees</u></p> <p>Meetings are charged separately on an “as held” basis as each client requires a different amount of time.</p>	<p>Meetings are usually charged at a rate of \$330 per hour including GST.</p> <p>Note: the Discovery Meeting, Engagement Meeting, Initial SOA Presentation Meeting and Initial Investment Recommendation meeting fees may be waived.</p>
<p><u>Ongoing Care</u></p> <p>We provide ongoing management and review of our client’s financial affairs and for this we charge an ongoing fee. This fee covers the costs of facilitating your ongoing wealth generation and wealth management over the years of our relationship.</p>	<p>These fees charged will depend on the level of ongoing management, service, complexity. We also may charge on a percent of your fund balance(s).</p> <p>Ongoing fees generally range from \$2,000 to \$80,000 per annum, however sometimes they are more and sometimes they are less.</p>
<p><u>Commissions on Insurance or other Products</u></p> <p>We may receive commission from the product issuer we recommend to you.</p> <p>We may receive initial / upfront or ongoing / trail commissions from the recommendation of certain products or funds. In most cases, we are able to rebate this commission on a product level, meaning the payment is never made to us, either being once off or annual, however, in some cases, product providers do not allow this.</p>	<p>We may receive an upfront commission on insurance of between 0% and 130% of the first year’s annual premium, and then an annual ongoing commission of between 0% and 40% of the annual premium.</p> <p>For example, for an insurance product with an annual premium of \$2,000, where the issuer pays us an upfront commission of 120%, we will receive \$2,400. The issuer will pay us 10% of the annual premium as ongoing commission for as long as you hold the product. Assuming an annual premium of \$2,000, this equates to \$200 per year.’</p>
